## Welcome!

Welcome to the Confluence page for the Laboratory Experiment Management System (LEMS) project, which will modernize BioSphere Innovations Ltd.'s research management and unify data flow across our global operations!

This page is designed to provide a central access point to all important documents, updates, and resources related to the LEMS project. Our goal is to ensure that all team members, stakeholders, and subject matter experts (SMEs) can easily access the most up-to-date information.

Together, we will build a system that transforms how experimental data is collected, monitored, and analyzed in our laboratories, accelerating our scientific discoveries and shaping the future of BioSphere Innovations.
